## AZF 6-33 self-erecting tents with fully inflatable frame

### Product Images

---

### Short Description

---

Ready to use within minutes, the AZF series is the ideal solution for all emergency situations. Durable, they can be efficiently deployed on any type of terrain.

### Description

---

#### Frame

Main beams and ridge beams are inflatable, made of airtight double-sided PVC-coated polyester fabric (1.10 kg/m<sup>2</sup>), fixed to the cover and floor. Eaves purlins are made of aluminium. Easy replacement of cover and frame. The tents can be set up in 4-7

minutes, depending on the tent size. A pressure relief valve prevents excessive pressure in the frame.

### Tent skin

Tent skin is made of double-sided PVC-coated polyester fabric (0.75 kg/m<sup>2</sup>); flame resistant, waterproof and mildew resistant.

### Floor

Floor covering of double-sided PVC-coated polyester fabric (0.75 kg/m<sup>2</sup>). Available with non-slip embossing as an option (0.85 kg/m<sup>2</sup>).

Other colours are available on request.
